AI Discoverability Gaps

- **llms.txt missing** — Returns 404
- **No AI crawler directives** — robots.txt lacks GPTBot, Claude-Web
- **No Knowledge Panel** — Not in Google Knowledge Graph
- **Blog on subdomain** — blog.caplinq.com reduces association

Research phase covers keyword opportunities, competitive landscape, SERP positions, and content gaps. CAPLINQ has strong niche rankings but misses high-volume head terms.

Hero Keywords

Keyword	Position	URL	Priority
die attach materials	#2	/die-attach-materials.html	Defend
conductive adhesives	#2	/electrically-conductive-adhesives.html	Defend
thermal gap pad	#4	/thermal-gap-pads.html	Improve
REACH only representative	#5	/reach-only-representative.html	Recover (was #3)
thermal interface materials	NR	-	**P0 Create**
epoxy molding compounds	NR	-	**P0 Create**
ion exchange membranes	NR	-	P1 Recover
polyimide tape	NR	-	P1 Recover

Competitive Landscape

Competitor	Type	AI Cited	Advantage
Henkel (BERGQUIST, LOCTITE)	Enterprise	Yes	Brand, R&D, scale
DuPont/Laird	Enterprise	Yes	Manufacturing, brand
3M	Enterprise	Yes	Everything
Indium Corporation	Mid-market	Yes	90yr history, Wikipedia
CAPLINQ	Specialty	No	REACH OR, niche focus

Content Gaps

- **Epoxy Molding Compounds page** — Blog ranks but no product page exists

- **TIM page FAQ expansion** — Only 1 FAQ, needs 10+
- **Die attach product display** — Shows "No Products Found"
- **EV thermal management content** — Hot market, no dedicated page
- **Hydrogen/fuel cell materials** — No dedicated landing page

Technical assessment covers Core Web Vitals, crawlability, on-page optimization, backlink profile, and domain authority. Mobile performance is the most critical issue.

Core Web Vitals

Metric	Mobile	Desktop	Target	Status
Performance Score	33	57	90+	FAIL
LCP	13.2s	2.5s	<2.5s	FAIL
CLS	0.671	0.399	<0.1	FAIL

Est. Referring Domains	200-500	1,000+
Global Rank	77M+	<1M (notable)

Content quality evaluation using the CORE-EEAT framework. Technical depth is strong but E-A-T signals (author credentials, external citations) are weak.

CORE-EEAT Scores

COMPREHENSIVE	OPTIMIZED	REFERENCED	ENGAGING
72	55	45	50

EXPERIENCE	EXPERTISE	AUTHORITY	TRUST
55	60	50	65

Content Strengths

- ✓ Deep technical content (8,500+ words on die attach)
- ✓ Visual aids (diagrams, comparison tables)
- ✓ Consistent publishing (1-2 blog posts/week)
- ✓ Multiple named authors

Content Weaknesses

- ✗ No author credentials displayed
- ✗ No external citations to authoritative sources
- ✗ Heavy product promotion bias
- ✗ No case studies or testimonials
- ✗ No interactive tools or calculators

Content Refresh Priorities

Page	Issue	Priority
Die Attach Materials	"No Products Found" display error	P0
Thermal Interface Materials	Limited FAQ (1 question)	P0
REACH Only Representative	Declining ranking (#3→#5)	P0

Ion Exchange Membranes	Lost ranking	P1

Actionable recommendations for SEO, GEO, meta tags, and schema implementation. Prioritized by impact and effort.

Content Recommendations

P0 — Create Immediately

- **llms.txt** — AI discoverability file with company overview
