Company Analysis: caplinq.com

CAPLINQ Corporation | Specialty Chemicals & Engineered Materials

Analysis: April 12, 2026 | Library v6.5.0

This executive summary provides a high-level overview of CAPLINQ's SEO and GEO performance. The analysis evaluates domain authority, content quality, technical health, and AI citation potential using the CITE and CORE-EEAT frameworks.

CITE Domain Authority

CAUTIOUS **48/100**

35	40	72	45
Citation (C)	Indexability (I)	Trust (T)	Entity (E)

CORE-EEAT Content Quality

69	71
GEO Score	SEO Score

72	68	65	70
Content	Originality	Research	Engagement

78	80	62	68
Experience	Expertise	Authority	Trust

Top Critical Findings

0% AI Citation Rate — CAPLINQ is recognized by AI engines (brand mentioned once) but the domain is never cited. Critical gap for GEO visibility.

Multiple 410 Errors — Key pages (/thermal-interface-materials, /about, /industries) return 410 Gone. Lost rankings and broken user journeys.

No Schema Markup — Zero JSON-LD detected. Missing Organization, Product, BreadcrumbList schemas. No rich snippets in SERP.

Mobile Performance: 53/100 — LCP 10.5s (target <2.5s). Impacts Google rankings and user experience.

#1 Ranking: Epoxy Molding Compounds — Strong position with featured snippet captured. Defend this position.

20 skills completed

Domain baseline establishes the foundational entity profile and AI citation status for CAPLINQ. This phase identifies how search engines and AI systems currently perceive and reference the brand.

Entity Profile

Company	CAPLINQ Corporation
Founded	2004
HQ	Assendelft, Netherlands
Global Offices	6 countries (NL, USA, Canada, China, Philippines, Malaysia)
Employees	~62
Certifications	ISO 9001
Industries	Semiconductor, eMobility, Renewable Energy, Electronics, Aerospace

Products & Services

Products: Thermal Interface Materials, Die Attach Materials, Epoxy Molding Compounds, Conductive Adhesives, Soldering Materials, Specialty Tapes & Films, Electrochemical Materials

Services: REACH Only Representative, Order Fulfillment (Europe), Technical Marketing, Material Testing

AI Citation Baseline

METRIC	VALUE
Queries Tested	13
Domain Citations	0 (0%)
Brand Mentions	1 (Gemini mentioned "Caplinq Corporation")
Engines Tested	Gemini, Anthropic (OpenAI errored)

Citation Results by Query Type

QUERY TYPE	QUERIES	CITATIONS	NOTES
Brand	3	0	AI knows company, describes accurately, but doesn't cite domain
Industry	4	0	Competitors (Brenntag, IMCD, Henkel) dominate responses
Hero Products	6	0	Brand mentioned once for "conductive adhesives" but domain not linked

Research phase analyzes keyword opportunities, competitive landscape, SERP positions, and content gaps. These findings inform the strategic recommendations for improving visibility.

Keyword Clusters

CLUSTER	KEYWORDS	PRIORITY
Thermal Management	thermal interface materials, TIM suppliers, thermal gap pads	P0
Semiconductor Materials	die attach materials, molding compounds, encapsulants	P0
Conductive Materials	conductive adhesives, conductive polymers, EMI shielding	P0
REACH Services	REACH only representative, EU chemical compliance	P1

Current SERP Positions

KEYWORD	POSITION	URL	FEATURED SNIPPET
epoxy molding compound suppliers	#1	/semiconductor-epoxy-mold-compounds.html	Yes (owned)
die attach materials	#2	/die-attach-materials.html	No (Wevolver owns)
REACH only representative Europe	#3	/reach-only-representative.html	No (Ecomundo owns)
conductive adhesives manufacturers	#7	/electrically-conductive-adhesives.html	No (Henkel owns)
thermal interface materials suppliers	NR	410 Error	No (Laird owns)

Competitor Landscape

COMPETITOR	EST. DR	STRENGTHS	CAPLINQ GAP
Henkel (Bergquist)	80-90	Brand, TIM market leader, rich content	Brand awareness, content depth
Brenntag	70-80	Global scale, 600+ locations	Distribution network

Indium Corporation	50-60	Technical authority, 11-language site	Multilingual support
Laird Technologies	60-70	TIM specialist, comparison tools	Interactive tools

Content Gaps

GAP	IMPACT	PRIORITY
No comparison/buying guides	Lose "best X" queries to competitors	P0
No case studies	Missing trust signals, authority	P0
No industry vertical pages	Missing automotive, aerospace, medical traffic	P1
Blog on subdomain	Authority dilution, fragmented rankings	P1

Technical phase evaluates site performance, on-page optimization, internal linking structure, backlink profile, and overall domain authority using the CITE framework.

Core Web Vitals

METRIC	MOBILE	DESKTOP	TARGET	STATUS
LCP (Largest Contentful Paint)	10.5s	2.2s	<2.5s	FAIL
CLS (Cumulative Layout Shift)	0.001	0.395	<0.1	FAIL
INP (Interaction to Next Paint)	120ms	33ms	<200ms	PASS

53
Mobile Score

61
Desktop Score

Technical Health

CHECK	STATUS	NOTES
HTTPS	Pass	Valid SSL, HSTS enabled
Security Headers	9/10	Full suite (CSP, X-Frame, XSS protection)
robots.txt	Good	No AI crawler blocks
Sitemap	Good	4 sitemaps, 130 URLs
llms.txt	Missing	404 - No AI discoverability file
Schema Markup	0%	No JSON-LD detected
HTTP Errors	5+ pages	Multiple 410 errors on key pages

On-Page SEO

FACTOR	SCORE	NOTES
Title Tags	7/10	Product pages good, homepage weak
Meta Descriptions	5/10	Missing on many pages
H1 Tags	8/10	Clear, keyword-relevant

Image Alt Text	4/10	~70% missing descriptive alt
Internal Linking	8/10	Good structure, but 410s break flow

Backlink Profile

METRIC	VALUE	NOTES
PageRank	2/10	Low-moderate authority
Est. Referring Domains	100-500	Limited data (Tier 1)
Est. Domain Rating	20-30	Below competitors

Content quality phase evaluates existing content against the CORE-EEAT framework, identifying strengths in technical depth and gaps in social proof and comparison content.

Blog Content Quality

Sample: "How Thermally Conductive Materials Remain Electrically Insulating"

FACTOR	SCORE	NOTES
Word Count	9/10	3,645 words - comprehensive
Technical Depth	9/10	Material physics, failure modes, testing
Original Insights	8/10	Challenges datasheet assumptions
Author Expertise	9/10	Named engineer with credentials
Freshness	9/10	March 2026, updated April 2026
External Citations	6/10	Proprietary data, few external sources

Blog Quality Score: 8.1/10 - Excellent technical content

E-E-A-T Signals

SIGNAL	STATUS	EVIDENCE
Author Bylines	Blog only	James Baduria, Applications Engineer
Company Credentials	Present	ISO 9001, 20+ years experience
Customer Testimonials	Missing	None found
Case Studies	Missing	None found
Expert Quotes	Missing	No third-party experts

Content Refresh Priorities

PAGE	CURRENT STATE	OPPORTUNITY	PRIORITY
/thermal-interface-materials	410 Error	Restore + optimize for top 5	P0
/die-attach-materials	Rank #2	Win featured snippet	P1

/electrically-conductive-adhesives	Rank #7	Move to top 5	P1

Recommendations phase provides actionable guidance for content creation, GEO optimization, meta tag improvements, and schema markup implementation.

Priority Content Pieces

CONTENT	TARGET KEYWORD	EXPECTED IMPACT	PRIORITY
Thermal Interface Materials Buying Guide	thermal interface materials suppliers	Enter top 10	P0
Die Attach Materials Comparison	die attach materials comparison	Win featured snippet	P0
REACH Compliance Checklist	REACH compliance checklist	Lead generation	P1
Case Studies (3)	Various	Trust signals, authority	P1

GEO Optimization Actions

ACTION	IMPACT	EFFORT
Create /llms.txt with company info	+15 I05 (AI discoverability)	Low
Add Organization JSON-LD schema	+8 E05 (Entity recognition)	Low
Add quantified claims to homepage	+5 C05 (Citation frequency)	Low
Create definitive guides with assertions	+15 C05	High

Schema Markup Required

SCHEMA TYPE	PAGES	RICH RESULT	PRIORITY
Organization	Homepage	Knowledge panel	P0
Product	90+ product pages	Product snippets	P0
BreadcrumbList	All pages	Breadcrumb trail	P1
FAQPage	Guide pages	FAQ accordion	P1
LocalBusiness	6 contact pages	Local pack	P1

Meta Tag Optimizations

Homepage (Recommended):

`Title: CAPLINQ | Specialty Chemicals & Engineered Materials Supplier Since 2004`

`Meta: Global supplier of thermal interface materials, die attach adhesives & epoxy molding compounds. ISO 9001 certified. Serving semiconductor, eMobility & electronics. Get technical support →`

Monitoring phase establishes baseline metrics and configures alerts for ongoing tracking of rankings, technical health, AI citations, and competitive movements.

Ranking Baseline

KEYWORD	CURRENT	30-DAY TARGET	90-DAY TARGET
epoxy molding compound suppliers	#1	#1	Defend
die attach materials	#2	#1	#1 + snippet
REACH only representative Europe	#3	#2	Maintain
conductive adhesives manufacturers	#7	#5	Top 3
thermal interface materials suppliers	NR	Top 20	Top 5

Alert Configuration

ALERT	TRIGGER	PRIORITY
Position Drop	Drops >3 positions on P1 keywords	P0
Lost from Page 1	Position moves from 1-10 to >10	P0
Performance Degradation	Mobile score <50	P0
New 4xx/5xx Errors	New URL returns error	P0
AI Citation Change	Citation rate changes >20%	P1
Competitor Enters Top 3	New competitor appears	P1

KPI Dashboard

METRIC	CURRENT	TARGET (90-DAY)
CITE Score	48	68
Keywords in Top 3	3	6
Featured Snippets Owned	1	4
AI Citation Rate	0%	25%

Mobile PageSpeed	53	80
Schema Coverage	0%	85%

This 90-day action plan prioritizes fixes and improvements based on impact and effort. Execute P0 items first to establish foundation, then build authority with P1 and P2 actions.

90-Day Action Plan

PRIORITY	ACTION	OWNER	TIMELINE	IMPACT
P0	Fix all 410 errors (TIM, about, industries)	Dev	Week 1	Recover rankings
P0	Create /llms.txt file	Content	Week 1	AI discoverability
P0	Add Organization JSON-LD to homepage	Dev	Week 2	Knowledge panel
P0	Add Product JSON-LD to top 10 pages	Dev	Week 2	Product snippets
P0	Optimize mobile performance (LCP <3s)	Dev	Week 3-4	Rankings + UX
P1	Create TIM Buying Guide	Content	Month 2	Enter SERP
P1	Create Die Attach Comparison Guide	Content	Month 2	Win snippet
P1	Add 3 case studies	Marketing	Month 2	Trust signals
P1	Migrate blog to main domain	Dev	Month 2	Authority consolidation
P2	Create 5 industry vertical pages	Content	Month 3	Vertical traffic
P2	Build 50 quality backlinks	Marketing	Month 3	DR improvement
P2	Re-run citation baseline	Analysis	Month 3	Measure GEO progress

Expected Outcomes

METRIC	CURRENT	90-DAY TARGET	IMPROVEMENT
CITE Score	48	68	+20 points
Keywords in Top 10	4	12	+8 keywords
Organic Traffic	Baseline	+40%	Traffic growth
AI Citation Rate	0%	25%	GEO presence

Featured Snippets	1	4	+3 snippets
Mobile Score	53	80	+27 points

B. AI Prompts & Responses

Complete record of AI queries used during this analysis (14 total calls), provided for verification and transparency. Per prompting-documentation.md, a full analysis generates 148-200 LLM calls.

Summary: 14 AI calls

Gemini (13 calls)

QUERY 1

```
What is CAPLINQ?
```

RESPONSE (excerpt)

CAPLINQ is a company that supplies specialty engineered solutions, including a range of chemicals, plastics, and products, primarily serving the semiconductor, e-mobility, power distribution, and renewable energy sectors. Established in 2004, CAPLINQ operates with a global distribution network and h...

QUERY 2

```
CAPLINQ Corporation overview
```

RESPONSE (excerpt)

CAPLINQ Corporation is a company founded in 2004 that operates with a dual business model: as a manufacturer and supplier of specialty chemicals, adhesives, and plastics, and as a digital-age market channel partner. Headquartered in Assendelft, North Holland, CAPLINQ serves high-growth sectors such ...

QUERY 3

```
CAPLINQ specialty chemicals supplier
```

RESPONSE (excerpt)

CAPLINQ is a specialty chemicals, plastics, and products supplier with over 20 years of experience in the industry. The company, founded in 2006, focuses on providing high-grade materials and technical support to a diverse range of customers globally. CAPLINQ's product portfolio includes a variety ...

QUERY 4

```
Best specialty chemicals distributors
```

RESPONSE (excerpt)

Identifying the "best" specialty chemical distributors depends largely on specific needs, including geographic location, required product portfolio, industry focus, and the level of technical support desired. However, several companies consistently rank among the top globally and regionally due to t...

QUERY 5

```
Top semiconductor materials suppliers
```

RESPONSE (excerpt)

The semiconductor industry relies on a specialized group of companies for the essential materials that form the foundation of microchips and other electronic components. While many companies are involved in various stages of semiconductor production, a few stand out as leading suppliers of the raw a...

+ 8 more calls (see prompt-results.json for full data)

Anthropic (1 calls)

QUERY 1

```
What is CAPLINQ?
```

RESPONSE (excerpt)

I'll search for information about CAPLINQ to provide you with accurate details. Based on the search results, CAPLINQ is a specialty chemicals and plastics expert specialized in conductive plastic, REACH Only Representation, Order Fulfillment and Technical Marketing . CAPLINQ offers a range of sp...

C. Score Provenance (All 120 Items)
